

OFFICIAL VISA REQUIREMENTS

All NOAA employees traveling OCONUS on official business **must** obtain an official passport and official visas if required, before leaving the United States. An official passport cannot be obtained for travel to Taiwan, and is not required for travel between the United States and U.S. territories. U.S. territories include American Samoa, Guam, Midway Islands, Puerto Rico, U.S. Virgin Islands, and Wake Island. The NTO strongly urges employees to carry birth evidence when traveling between the U.S. and U.S. territories to avoid unnecessary problems. However, if you have an official or personal passport, you are expected to use your official or personal passport instead of birth evidence. With the exception of U.S. territories, locations not listed require an official passport, but not a visa. **NOTE: Visa requirements are subject to change without prior notice from the Embassies.**
